

## Instruction

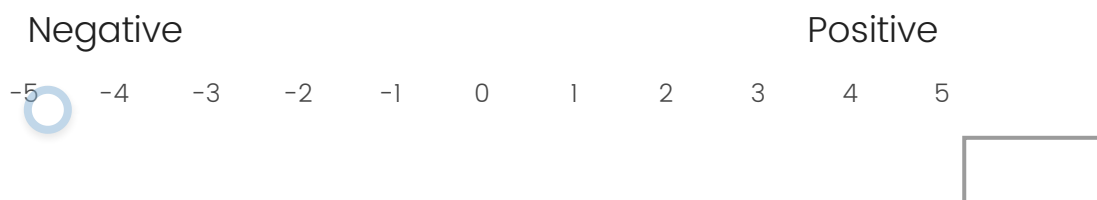

Experimenter: Enter ID

Please recall and list the two emotional autobiographical events you are willing to discuss in a lab setting. Please give each story a title, description, and rate how positive or negative each event was. These stories will be videotaped, and you will be watching them again later.

## Story 1

Story 1: Title

Story 1: How negative or positive was this event?

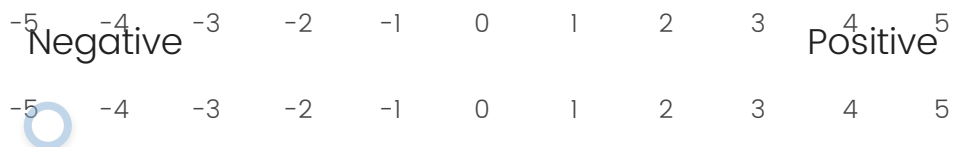

Story 1: Please spend some time to relive this event. You can think and write about five Ws, including when, where, what, who, why, and how.

## Story 2

Story 2: Title

Story 2: How negative or positive was this event?

Negative Positive

Please spend some time to relive this event. You can think and write about five Ws, including when, where, what, who, why, and how.
